As people of faith, we are seeking:

- MORALtorium on future drilling of new wells that involve hydraulic fracking and a halt to the development of related infrastructure..
- Full funding for the examination of existing PA wells to monitor for methane leaks polluting the air and gas leaks polluting the water.
- Full funding for cleanup of contaminated wells which cause health and safety problems for Pennsylvanians.
- Support for the renewable energy jobs.
- Community transition support and the retraining of workers displaced from fossil fuel-related jobs for the emerging renewable energy sector.

Join us: Meet with Legislative Leaders. Pennsylvania's energy policy is a moral issue.
