*"Never have we so hurt and mistreated  
our common home  
as we have in the last two hundred years.  
The exploitation of the planet  
has already exceeded  
acceptable limits and we have still not  
solved the problem of poverty.  
A true ecological approach always  
becomes a social approach;  
it must integrate questions of justice  
in debates on the environment,  
so as to hear both the cry of the earth  
and the cry of the poor."*

-Pope Francis, *Laudato Si*
