8000 St. Martin's Lane, Philadelphia

The Wisdom to Survive

This documentary accepts the consensus of scientists that climate change has already arrived, and asks, what is keeping us from action? The film explores how unlimited growth and greed are destroying the life support system of the planet, the social fabric of the society, and the lives of billions of people.

Groundswell Rising- Protecting our Children's Air and Water

This film gives voice to ordinary folks engaged in a David and Goliath struggle against Big Oil and Gas. We meet parents, scientists, doctors, farmers and individuals across the political spectrum decrying the energy extraction process known as fracking that puts profits over people. This provocative documentary tracks a grassroots movement exposing dangers to clean air, water, and civil rights.

Chasing Ice

In the spring of 2005, acclaimed environmental photographer James Balog headed to the Arctic on a tricky assignment for National Geographic: to capture images to help tell the story of the Earth's changing climate. Even with a scientific upbringing, Balog had been a skeptic about climate change. But that first trip north opened his eyes to the biggest story in human history and sparked a challenge within him that would put his career and his very well-being at risk.
